

# Camps International

Guiding, developing and challenging a future generation.

## Core Values of Camps International

### Concisely put...

We start camps and train counselors to use them.

### We saw a need...

Camps International was organized believing that a culturally adapted camp facility and program would bring lasting benefit to children, their families and churches. There are many children living in large cities around the world with no access to the incredible influence of a Christian camp experience. We are working to change that.

### The result...

Camps International (CI) assists local talent to start Christ-centered camps in places where there are none. We train counselors to accomplish outreach ministry for their church. CI creates Christian counselor-centered autonomous camps that use a small group ministry focus before, during and after the camp event.

Camps International exists to facilitate the formation of Christian-youth-camp settings in the nations of the world, wherein these camp settings provide opportunities for the telling of the Good News of Jesus Christ.

### Philosophy

We believe that Christian camping can assist church and family and thereby impact societies and cultures. In order to serve church and family we seek to uphold the authority and structure unique to each unit as it conforms to Scripture. We value the giftings and talents given to individuals and the institutions they form. We therefore strive to equip those who are entrusted to us so that they can best use camp as a tool to further their God given calling.

### Mission

Our calling is to provide camp settings for people, especially youth, in which trained leaders facilitate directed learning experiences that relate creation and Christ.

### Purpose

Our intention is to glorify God by aiding individuals, families, organizations and local churches in presenting the Word of God to the needs of individuals through a trained staff within the environment of camping. We are determined to be about facilitating people in ministry, bringing people to Jesus and drawing people toward Christ-like maturity.
